

# Student President Elections Manifesto and Mini-festo Form

## **Manifesto**

I'm Ann,

If I am elected, my priority will be to communicate with students as much as possible to really get to the heart of what students require - what is working well and what we can do to make things better.

My main focus will be on the following:

1. Education - ensuring students have access to the very best education possible
2. Activities - bringing students together through the formation of more clubs, societies and informal chat groups
3. Mental health and physical wellbeing - making sure that there are as many opportunities for students to gain and maintain excellent physical and mental health during their time at college
4. Set up a charities committee - organising fundraising events to give students the opportunity to help raise money for selected charities throughout the year

As voluntary VP Activities this year, I have had the opportunity to sit on the Student Experience Committee and I understand the links between the management team and the student feedback from our class rep system. I have also helped ensure that sanitary products and condoms are discreetly available to students.

I have helped organise the Walking Together challenge and look forward to organising more events and fundraisers this term.

If you vote for me, I will have the time and resources to help improve the student experience as much as possible through my four focus areas!

## **Mini-Festo**

My priority is to communicate with students to get to the heart of what students require - what works well and what we can do to make things better.

My main focus areas are:

1. Education
2. Activities
3. Mental health and physical wellbeing
4. Set up a charities committee
