

# Student President Elections Manifesto and Mini-festo Form

## Manifesto

During my time as BCSA President I want to help the college population grow and achieve the goals you set for yourself.

I believe that if we invest in more support services and widen our range of resources we can all achieve our goals. I want to build on the foundation of the already great services that are provided here by expanding the amount of resources that are on offer to the student body.

I want to create designated people who are there for you, in your time of need. I want to open the conversation on mental health and build it into the core of the college foundation, removing all stigma and shame of dealing with complicated issues.

I will help you fight the struggle of being a student by dealing with the issues that we face daily, whether that be dealing with the financial strain of being a student to dealing with the extra pressures we all have in our lives.

I want to help you, the student body, get everything you want out of your college experience.

## Mini-Festo

How can I help you?
