

Student President Elections Manifesto and Mini-festo Form

Manifesto

I want to make the college experience for all students go smoothly and feel like the college is a safe place for them to attend not only at borders college in gala but the other campuses we have as well as everyone deserves a place where they feel safe and have the support and voice that they need. I want to make sure no one feels discriminated at the campus that they attend at. I am always there no matter how big or small the issue is, I will not rest until I have had it sorted and dealt with. Another big passion of mine is to make sure support is always available for students who need it so they can achieve their dreams and goals that they came to college for. I want to make people more aware of the support groups and facilities that we have both inside and outside the college that are there for when they leave the college and move on to bigger and better things. I also would like to make support groups for students who feel like they have no socialisation skills or friends, because everyone needs a friend. I want to keep the awareness of mental health going and the support that is out there for both male and females as it's still the 'big black dog' and not a lot of people are aware of the things in place for support. My biggest passion is to make sure all students have a voice that needs to be heard for changes not only in themselves but in the college as well. No problem is too big or small and can always be solved.

Minifesto

My aim is to make the college a fun and safe place for all walks of students, even if they need extra support or help. I will always be on hand to make sure no one feels alone.
